PROFILE

An adaptable professional with 4 years of experience as a Software Engineer, seeking a challenging role to leverage my skills. I have proven expertise in ReactJs, ReactNative, NextJs, SCSS, Redux, NodeJs, MongoDB, ExpressJS, and other web technologies, delivering innovative solutions both in frontend, mobile and backend web development within deadlines. My track record includes leadership, problem-solving, and prioritization abilities. I am eager to drive project success and provide exceptional user experiences.

EMPLOYMENT HISTORY

Jul 2022 — Present

Frontend Engineer, Zojatech

- Supervised five junior team members, fostering high performance and ensuring the successful achievement of development goals.
- Implemented the user interface of applications, maintaining a 100% accuracy rate and ensuring the technical feasibility of UI/UX designs.
- Enforced 100% user validation before submitting data to the back-end.
- Collaborated effectively with four other developers and three stakeholders to successfully develop and deliver over 15 new user-facing features.

Sep 2021 — Jul 2022

Frontend Engineer, Zojapay

- Reviewed design mock-ups and provided valuable usability feedback to designers for improvements.
- Developed and Integrated the back office for a peer-to-peer financial application using React, Redux, TypeScript, and SCSS.
- Optimized application performance for maximum speed and scalability using ReactJS, Context, and Redux.
- Thoroughly tested new features to identify and address bugs or defects, ensuring the proper functionality of the application.

Jan 2021 — Aug 2021

Full-Stack Engineer, IT Horizons

- Designed and implemented web applications, while also serving as a liaison within the web team for inter-departmental customer-facing projects involving third-party software integration.
- Developed a React application for an oil and gas company, enabling efficient management of the organization's budgeting processes.
- Adeptly handled integrated platforms encompassing databases, clients, and servers.
- Successfully rebuilt a year-old SaaS application using React 17 and Redux, complete with a comprehensive user experience redesign, culminating in the release of a beta MVP within a span of 10 months.

Aug 2019 — Jan 2020

Junior Frontend Developer, Freelance

- Developed websites for potential clients utilizing HTML, CSS, and JavaScript to meet their specific requirements.
- Engaged in mentorship under senior engineers, benefiting from their guidance and expertise.
- Played a key role in the transformation of template websites into fully functional and operational websites.

EDUCATION

2016 — 2020

BSc. (Hons) Computer Science, Oduduwa University Ipetumodu   Ile-Ife, Osun State.

Second Class Upper Division

SKILLS				
	HTML/CSS	Expert	TypeScript	Experienced
	React/ReactNative/Redux/RTK	Expert	Git/Github	Expert
	JavaScript	Expert	SCSS/Bootstrap/Tailwind CSS	Expert
	Jira	Experienced	NodeJS/MongoDB/Express	Experienced
	Agile Methodology	Expert	Postman	Expert

RESTFUL Web Services	Expert
NextJS	Expert

INTERNSHIPS

Mar 2019 — Aug 2019

Technical Support and Coding Apprenticeship, Obafemi Awolowo University, Computer Center

- Actively upskilled in PHP development with a focus on working with non-relational databases using NoSQL technology.
- Engaged in networking system operations throughout the office unit, collaborating under the guidance and supervision of experienced senior personnel.

COURSES

2021 — 2021

Getting started with NodeJS (Credential ID 3583135), Simplilearn

2020 — 2020

React JS - Complete Guide for Front End Web Development (Credential ID UC-ce6f4759-dca5-4fee-929d-c38c3aed4427), UDEMY

2020 — 2020

JavaScript Mastery, UDEMY

LIVE PROJECTS

Revvex V1 and V2 (Budget Management System) https://revvex.io

- Designed and developed a user-friendly frontend interface for the revvex application.
- Created features for budget creation, expense tracking, and goal setting to empower users' financial management.
- Collaborated with UX designers, backend developers, and tested extensively to ensure a smooth, secure, and efficient user experience.

Technology: React/Redux/RTK/Context/SCSS

Swap (Back Office Web Application) https://www.smartsend.uk/

- Craft dashboards, charts, and visualizations tailored for users.
- Deliver clear insights into financial data and analytics.

Technology: React/Redux/RTK Query/CSS/BootStrap

AIICO CAPITAL (Fintech Web Application) https://aiico.revvex.io

- Craft dashboards, charts, and visualizations tailored for users.
- Deliver clear insights into financial data and analytics

- Developed functionality and modules including

Products, bank accounts, and transactions specifically

tailored for managing AIICO money market funds and

balanced funds

Technology: NextJS/Redux/RTKQuery/CSS/Styled-

Component/TypeScript

Zojapay website and Admin (Back Office Web Application) https://zojapay.com

- Utilize encryption, input validation, and secure storage to shield sensitive information while ensuring a secure experience for 500+ users.
- Employ practices like authentication, authorization, and regular audits.
- Implement functions that deliver security and peace of mind by privately guarding the user application.

Technology: React/Redux/RTK/TypeScript/SCSS/Styled-Components/TailwindCSS

MaketPlace (Ecommerce Web/Mobile Application) -In View

- Collaborate with UX designers to translate wireframes and mockups into visually appealing and functional UI designs.

Technology: ReactJs/ReactNative/PWA
